Dear Mitrais HR Manager,

After looking around and comparing tons of companies and considering Mitrais high glassdoor rating and high jobplanet ranking , I have come to a clear conclusion that not only Mitrais is better compared to other companies, but also will give me a better career opportunity.

What stood out to me the most were the credibility that Mitrais have with their current domestic and overseas clients. And after looking around from what Mitrais's employee have to say about the company on glassdoor.com, I've come to a realization that Mitrais not only care about their clients but also care to their employee, thus making it a good and comfortable place to working with.

If I have to describe my best quality, it is my willingness to learn anything new. As a self taught web developer and graphic designer I have to learn everything from scratch, and with that I was able to learn many web framework, foundation of a good design, like layout, color combination, and typography, and I also able to use many graphic design application.

In my 2 year working as a self taught web developer and graphic designer, I have been making more than 50 worldwide clients satisfied with my my works, with more than 250 projects .

Thank you for your time and consideration. My work experiences, coupled with my affinity for react js developer, would make me an asset to mitrais. I can be easily reached at your convenience by email (wiramv@gmail.com) or by telephone (+6285156600229).

sincerely,

Wira Mahatvavirya
